

Daryl Jay Kyle

STORY

Daryl Jay Kyle is musician, producer, and songwriter from Rotterdam, with Moluccan roots. He started his musical career by singing in church at the age of 15. In that time, he discovered what his Christian faith meant to him. His faith, along with his admiration for (black) gospel music, grew to become a large source of inspiration for his music. In his family, he grew up with Soul, Funk, R&B en Jazz.

Daryl took the opportunity to star in the national TV show "Hit the Road". Daryl made it to the finals where he was awarded 3rd place. The year after, he released 10 songs in a single year.

The challenge grew and transformed into a journey in search of his own musical identity. Alongside this process, began a personal journey with God, of acceptance and of sexual identity. With support from his band, Daryl will share this story with the world during his concert in September 2022.
